## Campaign Will Bring Humphrey To Prestonsburg September 26

Senator Hubert H. Humphrey, Democratic candidate for vice president, will make a major campaign appearance in Prestonsburg September 26.

Humphrey's visit to Kentucky will follow by one day Republican presidential candidate Barry Goldwater's speech in Louisville.

Humphrey will be the second high government official to visit the Kentucky mountains this year.

Last April President Lyndon Johnson spent an afternoon in the Inez-Paintsville area on a tour of the economically hard-pressed Appalachian region.

Humphrey's Prestonsburg address is expected to draw nationwide attention as the outspoken liberal Senator from Minnesota speaks in a region for which major legislation has been introduced into Congress this year.

Humphrey has been a strong supporter of President Johnson's Economic Opportunity Act, which is now law, and the pending Appalachian Recovery Bill.

## Doug Combs Made Democratic Head For Perry County

Doug Combs has been named by the State Democratic Campaign chairman to be chairman of the Perry County Democrats for Johnson Committee.

The Democratic Headquarters will open Saturday in the Hurst Hotel Building in Hazard.

Combs, a former city commissioner and six years a mayor of Hazard, took the chairmanship because he felt the election of Lyndon Johnson would mean so much to Perry County and would help all of its citizens.

Combs is presently Kentucky State Railroad Commissioner.

## Area Redevelopment Meet Gives Promise Of Projects Starting

Special delegations of federal, state, and local redevelopment teams met Monday and discussed ways of bolstering local and regional development programs authorized under the Economic Opportunity Act, known as the antipoverty program.

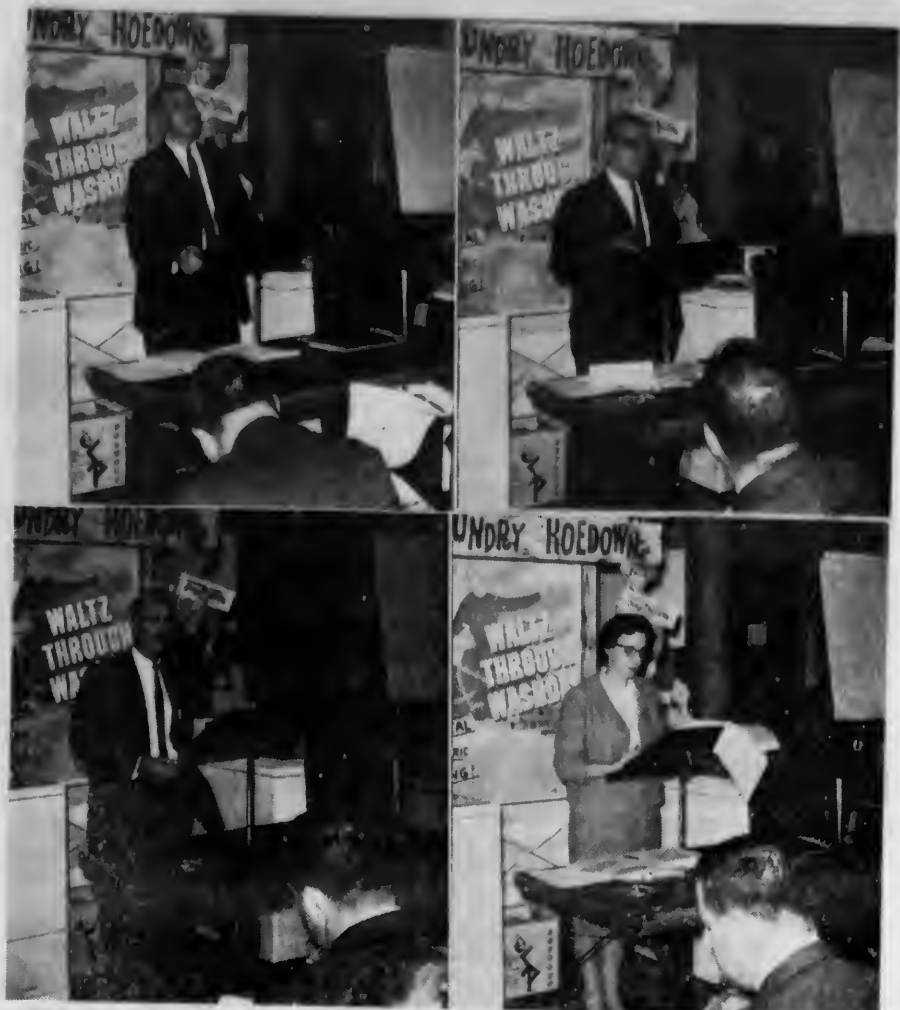

John Whisman, state administrator of the Area Program, said in a meeting at Hazard that the Economic Opportunity Act and the Appalachian Bill (on passage) will bring as much or more aid to Eastern Kentucky than anywhere else because this is the area that will be the testing ground of the administration in its fight against depression and poverty.

The purpose of the gathering of the act.

Community Action Programs He said that the term 'community action programs' refers to a set of actions which will provide a comprehensive attack on poverty and gave some valuable guidelines for determining community action programs:

1. Make the greatest use of local and state government and private resources.
2. Develop

## State VIP'S In Redevelopment Program

The above members of the state area development program spoke briefly before the Upper Kentucky River Development Association at the Power Company Monday and explained what benefits Eastern Kentucky would derive from the Economic Opportunity Act and how the community should go about planning projects that would be of help to the area. They are, bottom left, John D. Whisman, administrator of the Kentucky Area Program Office; lower right Alta Banks, State Health Educator; upper left, John Souder, from the Area Program Office; and Keith Kelley, a representative of the APO.

## Darfork Shooting Trial Begins at VFW Courtroom

Witnesses began testifying in Perry Circuit Court this morning in the case of Bob and Henry Davis, charged with shooting and wounding with intent to kill.

The trial is a result of a shooting fray last May 16 at Holman's Tavern at Darfork in which four persons were wounded, one left paralyzed below the waist.

The Davis men, cousins from about 25. Hilton, are being tried together after being indicted by a Grand Jury on three counts.

In his opening statement today, Commonwealth Attorney Tolbert Combs accused the pair of firing bullets in two separate volleys into the Tavern after the pair had been asked to leave by owner Holman.

Holman ordered the men out after Bob Davis, younger of the two, allegedly drunk and unruly, disturbed other tavern customers by loud profanity and by lying down across a coin-operated shuffle board machine.

Minutes after they left, Combs charged, the Davis men pulled up in a car in front of the tavern and several shots were fired, striking and wounding Richard Morgan, Roy Sizemore and Betty Wells.

The car pulled away then but returned a short time later when from it came another volley of gunfire, this time critically wounding Lucile White,

continued;

Boyd Sumner, uttering a cold check, case passed along;

Circuit Judge Don A. Ward this week signed court orders extending the term of the Grand Jury up to nine additional days and rescheduling all Circuit Court cases originally scheduled for trial on September 8, 9 and 10 for trial on October 14, 15 and 16, respectively.

Indictments of felony crimes handed down by the current Grand Jury so far are against Estil Holbrook, murder; Carla Hall, murder; Rex Kilburn, murder; Ledford Riley, murder; Herschel Ray Flannery, storehouse breaking;

Louie Sellers and Osborne Fugate, storehouse breaking; Rbert Lee Jameson and Bransford Feltner, grand larceny; James "Red" Childers and Bobbie Jean Childers, robbery; Verlie Mullins and Easter Mullins, assault and battery.

Kilburn's trial for murder is set for October 12.

## Six More Candidates Register For City-County School Boards

Six more candidates, three of them incumbents, have declared themselves in the running for city and county school board seats, bringing the total number of announced candidates so far to 8.

The six are city incumbents Paul Petrey and W. W. Reeves, challenger Moscoe Blackburn, and Hensley Sparks, Delmer Couch and Matt Couch seeking election to the Perry County board.

These men join as candidates Dr. Cooley Combs for the city school board and J. R. Hurt in the county. They filed their nominating petitions last week.

The candidacy of Blackburn in the city race will make a contest of what would otherwise have been an unopposed race. Three seats are up for election this year, to go to the three candidates polling the highest vote.

Sparks is an incumbent from District No. 1, while the two Couch men will oppose each other in District No. 2 as they battle for the seat now held by Paul Campbell.

Campbell has not yet filed for reelection, with the deadline approaching at noon Saturday.

Sparks, a Buckhorn resident, filed a nominating petition in the County Clerk's office bearing 49 signatures. Delmer Couch's petition had 67 signers

while Matt Couch's was signed by 80 people.

Reeves, hoping to continue a membership on the city school board that began in 1934, is the present board chairman. Petrey is running for his first time. He is presently filling out the unexpired term of Dr. E. E. Begley, who died while in office in 1961.

## M. C. Napier PTA Meeting Scheduled This Monday Night

The September meeting of the M. C. Napier Parents-Teachers Association will be held Monday, September 21, at the school.

A panel discussion of "Schools meet the challenge of change" will highlight the program. At present, Dennis Woodson, County School Superintendent, and Preston Hall, MCNHS guidance counselor, are members of the panel and others will be added before the meeting.

All parents are urged to attend. The PTA membership drive will continue for the next few weeks.

## Red Cross Council Appoints Eversole

Hazard City Schools Superintendent Roy G. Eversole has been appointed a member of the American Red Cross's Eastern Advisory Council for a three year period.

The appointment was made by American Red Cross chairman Robert Harman from the organization's national headquarters in Washington, D.C.

Membership on the Advisory Council will require Mr. Eversole to attend two regularly scheduled annual meetings a year as well as remain on call for consultation on Red Cross matters in the Eastern section of the United States.

Mr. Eversole has been active in Red Cross work for several years.

He was chairman of the Perry County chapter from 1956. After the 1957 & 1963 floods he served as chairman of the Advisory Committee for Rehabilitation and chairman of the Disaster Loan Administration. He has been superintendent of Hazard schools since 1946. He is a member and past president of the Lion's Club, a member in the First Baptist Church, and was named Hazard's Man of The Year in 1953.

## Cumberland Hosts Rare Jean Ritchie Concert

Folk singer Jean Ritchie of Viper will make a rare appearance in her native region October 17 when she takes the stage as a featured performer at the "The Kingdom Come Swappin' Meetin'" in Cumberland, Kentucky.

The "Swappin' Meetin'", a three-day folk festival at the University of Kentucky's Southeast Community College at Cumberland, will also feature Billy Edd Wheeler, Jean's sister Edna Ritchie, and story-teller Leonard Roberts.

The youngest of the famed Ritchie family of Viper, Jean is considered by critics one of the most authentic folk singers in the business.

Her many recordings are prized by collectors who take their folk music seriously. Her concerts have taken her across the United States and to England. She is a frequent guest on major television programs.

Her book, "Singing Family of The Cumberlands," which tells the story of the Ritchie family and much about Perry County history as well, is considered a classic of its kind.

Jean will sing and play her dulcimer at the Saturday afternoon session of the weekend festival.

Billy Edd Wheeler is perhaps most widely-known as the composer of "The Reverend Mr. Black," a song which the Kingston Trio made popular.

But at his Saturday night appearance at the "Swapping Meetin'", the audience will hear him add his highly individual singing and guitar-playing styles to his song-writing talent when he sings many of his original compositions.

Like Jean Ritchie, Wheeler's music is deeply involved with the Appalachian Mountains. A native of the West Virginia coal country, he was educated at Kentucky's Berea College before his songs and singing made him famous.

Story-teller Leonard Roberts is expected to lend an entertaining change of pace to the "Swappin' Meetin'" with his stories of the mountains.

A Kentuckian by birth, Roberts is an authority on the Appalachian folk tale. Many of his tales, gathered in remote hollows in Harlan, Perry and Leslie counties, have been published in a volume titled "South

From Hell Fer Sartin."

Though the Ritchie, Wheeler and Roberts appearances will highlight the festival, sessions of folk dancing, hymn singing and folk drama are scheduled to round out the weekend.

Students from Dilce Combs High School at Jeff will present the folk drama, directed by Edna Ritchie, at 7:30 p. m., Friday, October 16.

Here is the schedule for the weekend's activities: Friday, October 16, 7:30 p. m.: folk drama, presented by Dilce Combs High School students, followed by folk dancing demonstrations with audience participation.

Saturday, 1:30 p. m.: folk tales by Leonard Roberts, followed by Jean Ritchie's concert;

Saturday night, 7:30 p. m.: folk dancing by The Berea Dancers, (whose activities in the past year include appearances on the White House lawn and at the New York World's Fair) followed by Billy Edd Wheeler's concert;

Sunday afternoon: hymn singing, led by Edna Ritchie and Frankie Duff.

## Baptist Association Will Sponsor School Of Missionaries Sept. 20

The churches of the third district Baptist Association will be host to 111 students, state and home missionaries for a School of Missions beginning this Sunday, September 20th and continuing through September 25th.

Each of the 41 participating churches will be engaged in nightly mission study and will be hearing a different missionary in each service.

This program has been formulated by the various divisions of the Southern Baptist Convention to enable each local church to hear a number of missionaries representing mission fields of the world.

The missionaries include Ray and Mrs. Robert L. Bausum, who have served as Southern Baptist Missionaries to China, and Taiwan (Formosa) for over 20 years. Mrs. Bausum was principal and teacher in a Baptist girls' school in Kwangsi Province, China, for 20 years. She also taught in a boys' school and in a Bible School for preachers. She is a native of McKinney, Texas. Ray has supervised evangelistic work among rural and mountain tribesmen in the same area. He was born near Harold, South Dakota.

## Welcome To The Floral Show

This arrangement, designed by Mrs. Harold Sigmond and Mrs. Floyd Hall, was placed in the entrance of Convention Hall, LaCittadelle, where the Perry County Garden Club and Mountain View Garden Club Floral Show was held Friday and Saturday. The arrangement was not entered in the competition for prizes but was well appreciated by the many visitors during the garden show.

## AREA REDEVELOPMENT MEETING

(Continued From Page 1)

Among the anti-poverty actions that be included in a C.A.P. may be projects to provide remedial reading, literacy courses, job training, employment counseling, housing improvement, homemaker services, health services and job development, plus other actions which can help break the cycle of poverty for poor persons or for the community.

Keith Kelley followed Souder and discussed the organization structure of the county development associations and noted that Washington is aware that Kentucky is the best organized state in the nation for implementing the poverty program.

After a noon recess, T. Brooks Brademas, noted architect and president of City Planning Associates, Inc., addressed the audience. He pointed out that his company worked for over 70 communities in the nation and that in each and everyone of these communities, the biggest problem seemed to be organization leadership. He said, "that is not a problem here."

His company plans many model communities, such as the brand new town of Valdez, Alaska, which had been destroyed by the April earthquake.

He proposed to the audience that such a model community would greatly benefit the citizens of Carr's Fork and asked the audience what could be more dynamic than building new communities around this beautiful tourist-potential area?

He said that all eyes are on Eastern Kentucky to set the stage for the anti-poverty program.

County Project Reports  
Project reports from individual county members of the C.A.P. were made, suggesting that a lot of work had been done since the meeting.

These proposed projects (and we refer you to today's edition for an explanation, or if you will, a synthesis) were:

LESLIE COUNTY—1. Improve the sanitation in Hyden; 2. Begin a Youth Work-Study program; 3. Bring a youth conservation camp to this area; and 4. To build a library in Hyden.

LETCHER COUNTY—1. Start an adult education program; 2. Begin a "pre-school program" for deprived children; 3. Begin remedial reading for those in grades 1-12; 4. Start a mathematics program in all grades; 5. To begin a mountain family service center to provide services to families in agriculture, housing, health, education, and arts and crafts; 6. A general county beautification project.

KNOTT COUNTY—1. Pre-

## Local Garden Clubs Present Floral Show

Seldom have the citizens of Hazard and Perry County had the opportunity of seeing so much loveliness contained beneath one roof, as was beheld this past week-end at Convention Hall, La Citadelle, when the two garden clubs, The Mountain View Garden Club and The Perry County Garden Club joined forces and presented to the public "Circus With Flowers."

The remarks made about and the praise given to the members for this undertaking by the hundreds of enthusiastic visitors is indicative of the huge success of the show.

It is regrettable however, that several people wishing to enter exhibits arrived too late for entering due to the ten o'clock deadline, and it is hoped that they will not feel too badly about this since the two clubs are already planning to put on another flower show in the not too distant future.

State Garden Club Judges for the Show included Mrs. Earl Cole, Barboursville, Mrs. Charles D. Highland, Mt. Sterling, Mrs. Walter A. Hodge, Sr., Lexington, Mrs. Harold Sigmon, Hazard and Mrs. Arthur Whitaker, Cumberland Gap, Tenn. Members of the Evaluating Committee were Mrs. J. C. Lamb, Lexington, Mrs. Darwin A. Reavis, Louisville and Mrs. Wm. B. Tabler, Louisville.

237 Adults and 35 Juniors entered exhibits in the Horticulture Division, and in the Artistic Division by 82 Adults and 16 Juniors.

The Award of Distinction which may be made available to a blue ribbon winner in the Design Division with a total point score of 95 or more, in which elements other than fresh-cut plant material is dominant was awarded to Mrs. Gene Combs for her CIRCUS OF TOMORROW - a modern arrangement showing exhibitors interpretation of New and Modern.

The Tri-Color Award, which is made to a blue ribbon winner in the Design Division with a total point score of 95 or more, in which all plant material must be fresh cut or fresh cut plant material must provide dominant interest was given to Mrs. Gene Parker for her interpretation of THE FLYING TRAPEZE. Fresh arrangement stressing rhythm.

The Award of Merit was presented to Miss Marion Cole. This award is made available to a blue ribbon winner in the Horticulture Division with a total point score of 95 or more. Mrs. W. W. Reeves received the Sweepstakes Award in recognition of her receiving the greatest number of blue ribbons in the Horticulture Division. Sweepstakes Award for exhibitor receiving the greatest number of blue ribbons in the Artistic Division was presented to Mrs. Harold Sigmon.

The Junior Achievement Awards were presented to Miss Patricia Ray in the Artistic Design Division and to Miss Denise Shoemaker in the Horticulture Division.

Special Awards were presented to Miss Wilberta Combs for her Aids in arranging flowers, such as materials, literature, containers, etc. This exhibit table was titled "ALL THE CHARACTERS OF THE SHOW". ## Fine Arts Club Members Study Poetry Of Bryant And Longfellow

The Fine Arts Club met Friday at the home of Mrs. Estill McIntyre. The Club continued its review of early American literature and selected for the evening's study the poets, William Cullen Bryant and Henry Wadsworth Longfellow.

The early part of the evening was devoted to the life and work of the poet, Bryant. Each member reviewed for the Club some part of Bryant's life and times. With this background, the members began a discussion of Bryant's poetry. One of his greatest poems, "Thanatopsis" was read as a choral reading. Other great poems of Bryant were read orally by individuals. After each reading, the meaning of the poems was discussed by the group.

The second study session of the evening was given to the life and times of Longfellow. His poetry will be read at the next meeting. Also, the group plans to do "Evangeline", his lovely narrative poem, as a choral reading.

Dessert of prune cake and coffee was served.

Members present were Mrs.

## Hazard-Whitesburg Clash Tomorrow Nite At Yellowjacket Field

### SPORTTALK

WITH  
BEN FITZPATRICK

Those of us who follow local sports diligently noticed that Hazard dropped from 10th to 26th after beating our neighbors to the North 33-0. Please don't be anguished or angered. The Literatings are a big farce and meaningless around the state.

All they do is measure the intensity that a superior team might use in dealing with a weak squad. Hazard has never been high in the Literatings because they are the good samaritans of the mountains, refusing to run up the score on a team just to vie for Lit positions. I have not always agreed with this because I am certain that if Hazard ever had the tables turned and had a weak football team, our mountain foes would not hesitate to run up the score.

Hazard has a good football team this season, even though it might not reflect in the polls, but if we must have a poll to pacify our feelings, look to the UPI coaches poll, which is somewhat better than the Literatings.

Louisville schools, of course, rank high in this Louisville-based poll, regardless of their records, because they usually have good teams. Come basketball season, favorites ride the top ten and you can expect Hazard to be at the top all season.

Casually thinking back, it has been a long time since Hazard lost a regular season game (on the field). I believe the last seasonal loss was the Somerset game of 1959, which we lost 7-6, at Somerset. That would give Hazard a 41-game string in which no one has beat them by score.

Perhaps many of you have forgotten that Aster Sizemore, assistant coach at HHS, was Mr. Versatility when he performed for the Blue and Gold. As a senior, coach Sizemore (that has a peculiar ring because I have known him so long) carried the ball 86 times for 584 yards, a 6.8 average, scored 21 touchdowns, kicked 36 of 45 extra point attempts, and one field goal which adds up to the 164 points that earned him the official scoring title of Kentucky high schoolers. He also handled all the punting, averaging 40.4 on punts and 46.6 on kickoffs.

Not that this wasn't enough, he also played quarterback one game that an injured Ken Cobb missed, and was voted the outstanding defensive back in the EKMC, plus being a unanimous All-Conference choice along with Cobb, Britt Handy, Harmon Petrey, and Decourse Hariburton.

After watching Napier's physically thin squad play three games, I have concluded that if Ed Wilson ever gets eight or nine real football players down there, others teams will have to be very careful with the Navajos.

The performance he got out of his boys against Hazard is highly indicative of a good coach, and Ed Wilson is just that. It is encouraging to note that both football-playing schools in our community have outstanding, relatively young coaches—Wilson and Guy Olinger at M. C. Napier and Jack Carey, Aster Sizemore, and Fred Stidham at Hazard.

I don't know if coach Wilson will appreciate this comparison, but he reminds me of a younger Charlie Bradshaw.

In the first in a series of rugged encounters, Hazard's undefeated Bulldogs take on the potentially explosive Whitesburg Yellowjackets at Whitesburg Friday night. Stung by a 13-7 loss to strong Cumberland last week Whitesburg will be fired up and waiting for their arch-rival Bulldogs.

Coach Jack Carey's charges, fresh off a 33-0 win over M.C. Napier, have yet to be extended in rolling up victories over Wallins, Prestonsburg, and the Navajos, scoring 104 points against six in the process.

Coach Carey noted that the Yellow Jackets offense was potent and could be troublesome to his huge defense. Led by halfbacks William Wright and Steve Lucas, and quarterback Steve Frazier, the Jackets have rolled up 113 points in their four encounters.

Carey also expressed respect for a defensive line that has yielded 27 points in four games, all of them coming in two losing causes.

For the fourth straight game, Hazard's offensive backfield will not be decided upon till the day of the game as Coach Carey can choose from a 10-deep backfield.

He intimated that regulars Bill Morgan, QB, and Houston Hogg, HB, would be certain starters, with possible nods going to HB Keith Reynolds and FB Freddy Barnett, who is returning to offensive action after a two-week injury-caused layoff.

However, the coach also said that Jerry Combs or Jerry Robinson could get the other half-back spot. Seven different backs have seen touchdowns in the first three games.

Jerry Combs

Jerry Robinson—HB

The line will be the usual with leading scorer Freddy Hogg at one end and Junior Walker at the other flank, O. J. Rowe and David Olinger at tackles, David Stanford and Tom Manning at guards, and Gordon 'Gigi' Benning at center.

Hazard's top offensive operatives are Morgan, who has thrown six touchdown passes, H. Hogg, averaging 5.5 on 31 carries, and Collins, averaging 10.9 on 12 runs, and Kevin Collins, 6.6 on 14 rushes.

#### Leaders Clash Tonight In LL Football Games

Walcott and R. G. Evered White collide tonight in a head-on meeting of the Little League's undefeated ball clubs. It will match the finesse of Shockey Bowlings Wildcats against the stout defense of the Whites and to the running of HB Vernon Combs.

The second game will pit the R. G. Reds against the Lothair Mustangs in a battle for last place.

### Napier Battles 8th-Ranked Elkhorn Cougars Friday Night

Coach Ed Wilson's Napier Navajos take on the eight-ranked team in the state Friday night when they travel to Elkhorn City for an 8:00 p.m. engagement with the Golden Cougars.

Coming off a good effort against Hazard, the Navajos figure to extend the Cougars more than others give them the chance to.

Napier's offense came to life against the Bulldogs and with Martin Allen at quarterback directing a fired-up offensive backfield, featuring Jimmy McAlarms, They should give the

### Lothair Runs Their Season Record To 33-9 By Splitting Games This Week

Lothair won one and lost one last week to run their season record to 33-9, beating Grapevine 14-6, but dropping a 3-1 decision to Gay's Creek.

A solid batting attack helped new pitcher Jerry Riley over Grapevine in his first start for the Lothair nine. Paced by home runs by Pick Rose, Jim Hall and Ray Winnett, Lothair jumped into an early lead and Riley held the Grapevine slug

gers in check most of the game. In the Gay's Creek tilt, their ace A.B. Holliday chucked a solid three-hitter at Lothair and received superb backing by his defensive infield.

Gene Smith matched Holliday's performance, allowing 3 hits and struck out twelve, but poor support behind him was costly as Gay's Creek scored once in the 1st on a walk and three-base throwing error, and twice in the 4th on two errors a walk, and a single.

## Ky. Federation of Women's Clubs Nurse Scholarship Goes

"There's nothing permanent except change" is the theme of the Fall Conference of the Kentucky Federation of Women's Clubs, meeting at May Lodge, Jenny Wiley State Park, Prestonsburg, September 21, 22 and 23, the first state meeting in Eastern Kentucky in 23 years.

Dr. George P. Archer, Mayor of Prestonsburg, will welcome the clubwomen Tuesday morning, September 22.

Mrs. W. Ed Hamilton, Bards town, President of the Kentucky Federation of Women's Clubs, who will preside over the Three Day Meeting, announces the opening panel program, "Much Ado About Many Things," will feature Dr. B. H. Jarman, Pikeville, President of Pikeville College and Dr. Clyde Sparks, Ashland, prominent surgeon.

Besides his duties as President of the Pikeville College, Dr. Jarman is a regular guest professor at Pennsylvania State University and the St. Louis University. A former president of the Kentucky State Medical Association, Dr. Sparks now serves as chairman of the Technical Advisory Committee on Indigent Medical Care.

"Communication Media in A Rapidly-Changing World" is the topic of Carol Sutton's talk in the afternoon. One of the youngest newspaper department heads in the country, Miss Sutton is editor of the Women's Department of The Courier-Journal, Louisville.

A former president of the Kentucky Speech Association, Don F. Holloway, Morehead, will give "Some Help on Public Speaking" to the Club President's Wednesday morning, September 23, with Mrs. Francis M. Pennington, Ashland, discussing "What's Your Parliamentary Procedure Score?" the morning before.

Mrs. Edward A. McEver Williamsburg, and Mrs. R. V. May, Prestonsburg, will preside over the Workshops Tuesday and Wednesday.

A "Ways and Means Clinic" will be moderated by Mrs. Bonnie Whitten, Director of Consumer Services, Sperry and Hutchinson Co., New York City, Wednesday morning, Sept. 23. Mrs. Boyd Sisk Leitchfield and Mrs. T. D. Winstead, Richmond, will hold a workshop for Club Treasurers.

Thirty employees of the Ashland Oil Company, organized seven years ago for the "Joy of Singing" will entertain at the evening session, Sept. 22, under the direction of Stanley Burks.

"The Arts in A Changing World," moderated by Mrs. Adron Doman, Morehead, former president of KFWC, will feature "Speech," "Music," and "Art," by Messrs. Rex Chaney, John Satter and Fred Marzon, all of Morehead, followed by a reception honoring the president, Mrs. Hamilton, given by the Pikeville Woman's Club.

Sharon Hall, Miss East Kentucky of 1964, will entertain with choral numbers on the morning of the 23rd. A choral group of students from the Prestonsburg High School, known as "The Patsy Teenagers" directed by Kathryn S. Frazier, will entertain at the luncheon on the 22nd. These young people are the sons and daughters of employees of the Princess Elkhorn Oil Company. They have made TV appearances in Cincinnati, Columbus and Chicago.

The clubwoman of the twentieth century is no longer pictured as the fuzzy-minded co-sipping lady of leisure. She is the hardest working woman in her community, says Mrs. Hamilton, who is interested in giving scholarships, teaching adults to read and write, keeping drop-outs in school, securing cultural advantages improving their communities by manning recreational centers libraries, clinics, knowing that the welfare of others is uppermost in her mind, at the same time concentrating on building better individuals. One hundred courtiers in Kentucky claim these clubwomen.

The KFWC Conference Committee from Prestonsburg and Pikeville are preparing for more than 300 officers and club members.

## Vitamin Study For School Children

A controlled study of the value of vitamin supplements for mountain school children, to be conducted during the next two years by one of the nation's major pharmaceutical firms in collaboration with the Council of the Southern Mountains, was announced today by Mr. William H. Suters, Jr., Health Educator for the Council.

E. R. Squibb & Sons has set up a plan with the Council wherein five thousand children will be given daily vitamins in a "reverse control" study. Half of the children will receive vitamins for one year and the others will be aided for the second year.

Dr. Thomas J. Ormsby, Senior Associate Medical Director of the Squibb organization will direct the study which will be made in eight counties of Kentucky: Jackson, Knott, Leslie, Letcher, McCreary, Perry, Pike and Rockcastle. County Health Officers and Superintendents of Schools in all eight counties are co-operating heartily in the plan.

## C'land College Has Largest Enrollment In School's History For Fall Term

WILLIAMSBURG, Ky., Sept. 17—President J. M. Boswell today announced that Cumberland College's full-time enrollment for the 1963-64 fall term is 1,070, the largest in the school's history.

Incoming freshmen totaling 450 gives Cumberland another school record over the 425 first-year students in 1961.

The second previous high in total enrollment was 1,069 in the fall term of 1961.

The Williamsburg Institution is now in its fifth year of service offering a four-year program.

## Lothair Baptist Church in School Of Missions Sponsored by Three Forks

The Lothair Baptist Church will participate in the School of Missions sponsored by Three Forks Baptist Association, the pastor, Clifton Courtney, announced today.

The School of Missions will begin Saturday night with a potluck supper and a rally at the First Baptist Church in Hazard. The supper is at 6 p.m. Sixteen churches from Perry Knott, and Leslie Counties are participating. A different missionary will speak each service from Sunday morning through Friday night of next week.

At the Lothair Baptist Church a Mission Study will be conducted by Sunday School classes for one hour each night preceding the missionary's address. Classes for each age group will be held at 6:30. The following classes and leaders are announced: Adult Men Mr. Hobart Franks, leader; Adult Women, Mrs. John Heffnerberger, leader; Young Peoples, Mrs. Grace Bowles; Intermediate Girls, Mrs.

Clifton Courtney; Intermediate Boys, Mr. Norman Strunk; Junior Girls, Mrs. Estill McIntyre; Junior Boys, Mrs. Ida Bath; Primaries and Beginners, Mrs. Keith Reynolds; Nursery, Mrs. Norman Strunk.

On Sunday morning, the Missionary address will be given by Mrs. Robert F. Bausum, retired missionary from China. On Sunday night following Training Union at 6:30 the Rev. Chase W. Jennings, City Missionary in Covington and Newport will speak. A list of next weeks speakers will be published Monday. The public is invited to these and all services next week.

### Pilot Food Stamp In Perry County Remains The Same

The U. S. Department of Agriculture's pilot food stamp programs will continue to operate under existing regulations until provisions of recently enacted food stamp legislation can be put into effect. USDA's Agricultural Marketing Service has announced.

The new Food Stamp Act of 1964, which was signed into law on August 31, will eventually result in minor operating changes and a new list of eligible foods. The Agricultural Marketing Service said ample notice of the new program regulations and "changeover" procedures will be given to all participants in the program.

In the meantime, food stamp program officials of the Agricultural Marketing Service said that present regulations for the pilot food stamp programs remain unchanged.

The pilot food stamp program has been in operation in 13 project counties in 5 southeastern states. The oldest of the southeastern program areas in Floyd County, Kentucky, which was inaugurated on June 1, 1961.

Here is the local program area, name of the Agricultural Marketing Service's local program supervisor, and his location:

## Kiwanians Hear Vo-School Instructors At Club's Tuesday Meet, September 2

Charles Thomas, Jr., instructor in small engine repair, and also teacher of basic subjects to "unemployed fathers" at Hazard Vocational School, accompanied and assisted by C. R. Prater, Director of Vocational School, addressed the Kiwanis Club Tuesday evening, September 2, 1964, 6:30 p. m., at Don's Restaurant in the serving room in the rear. This was the first meeting at the new location.

Charles has been an instructor since the first of the year. His basic subjects are reading, writing, spelling, and English. His small machinery includes such implements as lawn mowers and similar articles.

His class members are a large per cent unable to read and write. Others, more advanced in English, write compositions and are very interested.

They vary in age from 16 to 37 years. The class contains about thirty or forty members. "They seem very sincere and anxious to work," he states, and their problem will be to get a job which will probably have to be away from here.

The placing is all done by the

Department of Economic Security. George Pendleton, Vice-President, presided in the absence of President Don Ward. Claude Isaacs was program chairman.

The annual peanut sale is scheduled for September 19, and the annual pancake fry will be in the near future.

## Screening Program For First Grade

### Children Has Begun

Monday, September 14, marks the beginning of Perry County's three-week multiple screening program for all first grade children.

These physical and dental examinations will be performed in the Perry County Health Department in Hazard by a public health team of physicians, dentists, nurses and laboratory technicians. Local health department nurses, clerks and auxiliary workers will assist with the screening procedures.

Each child to be examined MUST be accompanied by one parent. About three hours is allowed for each child to complete the screening tests; and the accompanying parent may also receive the examinations if he wants them.

Parents should make their own arrangements for lunch, since the screening tests will continue during the lunch hours, and there are no facilities in the health department for this.

Some parents may wish to furnish their own transportation into Hazard; but free school bus and car transportation, to and from the health department, will be provided for all parents and children who wish to use it. Each community in the county has been assigned a particular day for the screening, and everyone must come in on their listed day. Registration will be held from 8 a. m. to 2 p. m., and there will be no clinic on Friday's.

The schedule for each day is listed below:

## Home Ec. Teacher's Conference Set For September 23 at Power Co. Office

The Home Economics Teachers Conference will be held September 23 in Kentucky Power Company's Hazard office. Featured speaker this year is Ruth E. Weisheit of Dayton, Ohio, a member of the home economics department staff of the Frigidaire division of General Motors.

Miss Weisheit will introduce the teachers to the new features of the five major Frigidaire appliances provided without charge to the schools by Kentucky Power. The five appliances are range, washer, dryer, dishwasher and refrigerator-freezer.

Kentucky Power Company has 131 major appliances in ser-

vice in the schools in its Hazard Division, which serves parts of Breathitt, Knott, Leslie, Letcher and Perry Counties.

Miss Weisheit joined Frigidaire in 1962, after serving as senior textile analyst in the Merchandise Quality Control and Product Development Department of Montgomery Ward in New York. From 1957 to 1959, she served as textile analyst for Beaunit Mills in New York.

She was graduated from Purdue University with a Bachelor of Science degree in Home Economics. Later, Miss Weisheit earned a Master of Science degree in Home Economics, majoring in textiles. In addition, she completed special training at the National Institute of Drycleaners, Silver Springs, Md.

Miss Weisheit is a member of the American and Ohio Home Economics Association, Home Economists in Business section of AIEA, the Electrical Women's Round Table and Omicron Nu, a home economics honorary organization.

## District Meeting of Retired Teachers Held Thursday, September 10

The third district meeting in the past year of the National Retired Teachers Association convened Thursday afternoon, September 10, in the auditorium of the Lower Broadway or Administration Building of the Hazard City School system.

The meeting was called to order by J. F. Brophy, President. Mrs. Clyda Fuson, Secretary and Treasurer, gave a financial report. Mrs. Mae Jarrel, Chairman of the constitutional committee, read a draft of the constitution for the organization.

The local district includes the same counties as the U. K. R. E. A. for Hazard area which is composed of seven counties and includes four independent districts as follows: Perry, Breathitt, Letcher, Knott, Leslie, Wolfe, and Owsley counties. Hazard City, Jackson City, Jenkins Graded, and Hazel Green Academy.

Each district corresponds to the nine districts in Kentucky organized by the K. E. A., which, according to last legislation, includes the N. R. T. A. M. F. Holcomb, Viper, Kentucky, Mrs. Nancy Colwell, Yerkes, Kentucky.

The last part of the meeting included a lecture by Allen C. Schinagle, explaining teachers' insurance; he is a representative of the Aetna Life Insurance Company, Louisville, Kentucky.

The next meeting is scheduled for Friday, October 9, 1964, at the annual U. K. R. E. A. session and all members and potential members are invited and urged to be present.

## Perry County Store Disqualified From Food Stamp Program

Perry County, Ky. Store Disqualified From Food Stamp Program—

ATLANTA, Ga. — The U. S. Department of Agriculture today announced that it has disqualified a Perry County, Ky., food store from participating in its food stamp program because of program violations.

The disqualified retailer is Lonnie Grimes, doing business as Grimes' Grocery at Scuddy, Ky., according to USDA's Agricultural Marketing Service.

In a letter to Grimes, the Agricultural Marketing Service requested that he surrender his authorization card, all posters, forms, and other official materials which identified Grimes' Grocery as a participant in the food stamp program. The letter was signed by Russell H. James, Southeast area director of the Agricultural Marketing Service's Food Distribution Division of Atlanta, Ga.

The USDA complaint alleged that Grimes accepted food stamp coupons for ineligible items, accepted loose \$2 coupons, gave cash in exchange for food coupons, and gave cash as change, all violations of program regulations.

The Agricultural Marketing Service says the disqualification is for a six-month period. After the six-month period of disqualification, Grimes may apply for reinstatement. If approved, he will be issued a new authorization card and number.

Officials of the Agricultural Marketing Service pointed out that the disqualification does not preclude further action to collect claims under food stamp regulations or possible prosecution under any criminal or other applicable statute.

The Agricultural Marketing Service continually reviews program activities in all food stamp program areas. Investigations are made periodically to insure compliance with the program regulations.

More than 580 food stores are authorized to accept food stamp coupons in Perry, Knott, and Floyd counties, the three food stamp program counties in Kentucky. Perry County began its food stamp project in March 1963.

The Western Kentucky Parkway accounted for \$174,214 of the August revenue. The Parkway was still being built in August, 1963.

In Jefferson County, \$8,309 was collected at the northbound ramp on the Kentucky Turnpike near Okaloona, and \$7,750 at the southbound ramp.

Gross receipts of the toll facilities for August of 1964 and 1963, as reported by the Department of Highways:

Shawnee-Town Bridge \$27,459, \$29,024; Kentucky Turnpike \$307,234, \$313,153; Mountain Parkway \$94,348, \$50,803; Western Kentucky Parkway \$174,214, blank.

## EDITORIAL

### A Teacher's Rights

Perry County School Superintendent Dennis Wooton's rebuttal to a Hazard Herald editorial two weeks ago confirms the very point that editorial tried to make: that a Perry County school teacher was treated by the School Board with so little respect for his professional capabilities that he was forced to leave his home county to take a job in another state.

The case in question involved a fully-qualified teacher who was transferred from a teaching-coaching job he had held successfully for two years to another school over twenty miles from his home, a job he didn't want and ultimately refused to continue in.

Superintendent Wooton said in his letter to the editor in last Thursday's Herald that the teacher was transferred to the other school at the request of "good citizens" in the Jeff community after the teacher was "caught" in a tavern one night.

The simple fact that some "citizens" in a community ask that a teacher be removed seems to us a painfully inadequate reason for such drastic action. Is a teacher's job no more secure than that? Practically every teacher in Perry County, regardless of how popular or how good he is, has someone who doesn't like him, or who perhaps simply wants his job. Has it come to the point that to have a teacher removed from a school, all you have to do is ask?

Of course citizens must always have the right to complain about any public official or employee, for good cause. But there are standard ways to go about such

action. Did the "good citizens" make their complaints and charges against this teacher to his face, in an open hearing where the teacher might have defended himself? How many "good citizens" actually complained? Did they represent the majority of opinion in the teacher's district? What is indicated by the fact that School Board member Dacker Combs, who represents the majority of opinion in the district fought against the teacher's removal?

Nowhere in Mr. Wooton's letter does he say that the teacher was not qualified for his job, that he was not a good teacher. His educational background and his practical experience, which add up to the professional capabilities we mentioned, meant nothing once the "good citizens" made their complaint. And even in spite of the alleged complaints, the School Board could not have been too worried about the character, or "some habits" of this teacher or it would not have offered him the assistant principalship of a high school.

The Herald has been asked why it continues to editorialize so much on this particular teacher issue. The answer is that this example is only symbolic of a deeper problem. The questions raised by this teacher's fate transcend his single case. If a teacher's job is so precarious, is it any wonder that teaching in Perry County, is no more attractive than it is? Without teachers who can feel free and dedicated in their profession, how can our mountain schools ever be other than they are?

### Storm Drains & Sewer Lines

City Manager C. C. Colwell has expressed a concern for the city's new sewage treatment plant that every one in Hazard should share. The concern is brought on because of the common practice of Hazard house owners connecting water drains to their sanitary pipe line, which in time of heavy rain floods the new sewage plant with literally tons of water that should have been left above ground.

There is no justification for this practice. It makes no sense to invest hundreds of thousands of public dollars in a

modern facility, only to misuse it. If household storm drains connected to the sewer-line are threatening the city's expensive new equipment, they should be disconnected at once and the rain water kept above ground.

In the best interest of all concerned, the individual property owners should voluntarily disconnect their water drains from their sanitary lines. Failing this, the city is justified in taking whatever steps are necessary to force the property owners to act.

### Don't Be A Dropout

Almost a million young people will quit high school this year. Sixty-five percent of them have the brainpower to graduate. Ten percent of them have the mental ability to get a college degree.

Sad? You bet it is.

Automation is doing away with thousands of unskilled-jobs every day. And the need for educated young people in the business world was never greater.

If you're planning to quit high school, do yourself a favor and get all

the facts first. Talk with a teacher or a student-counselor at your school.

Remember, a good education is your right as an American. Don't get short-changed. And don't let anybody talk you into a mistake that will keep you on the bottom of the heap for the rest of your life.

Chances are you don't belong there. Chances are you'll come up with a good job and a better future, if you'll just play it cool and stay in school.

## A Brief Explanation Of The Economic Opportunity Act

The Economic Opportunity Act has been prominent in the news media and the recent meeting at the Power Company brings the act to our community forefront, but just what does the act promise our area. To decide this, we must look at the act itself and dissect it.

It is divided into several general sections. The first one concerns our youth and is subdivided into three programs that are designed to provide employment and/or training for young people:

1. A Job Corps for those 16-21 years of age who have not completed high school training. Training will be done in conservation and training camps and will deal mainly with general education, vocational experience and work training, and safety and health services.

2. A Work Training Program, also for those 16-21, though not restricted to non-high school graduates. It is aimed at increasing trainee employability and occupational skill with trainees being employed in local or state community activities.

3. A Work Study Program for college students in need of a part-time job in order to continue their education. The program will be administered through local colleges and universities and will strive to provide on or off-campus employment for students of low income families, in a job that will add to the student's educational objective.

The second section, adult education, is designed to raise

the educational level of adults; programs developed under this heading must be aimed at persons 22 years old or older. This section, important to Eastern Kentucky, concerns, in the main, those who have not received a fifth grade or equivalent education, whose members are of a low-income family.

A third section concerns special anti-poverty programs for rural areas. They are to raise and maintain the income and living standards and to loan up to \$2,500 to low income rural families and cooperative associations for the purpose of buying or improving land, or for processing, purchasing, and marketing services.

It can be used by families with incomes up to \$3,000, but is directed primarily at rural farm families with incomes less than \$1,000 annually, who wish, but cannot get, credit from other sources on reasonable terms.

The fourth section is an employment and investment incentive program which seeks to assist the employment of long-term unemployed through the bolstering of small business concerns. Small firms would be strengthened with loans up to \$25,000.

A fifth section is the work experience programs which are designed to expand opportunities for constructive work experience and needed training for persons unable to support themselves or their families. This would concern those persons (especially unemployed fathers) who are unemployed

but who could be employed or made employable through on-the-job work training.

To implement action on these sections, local programs should be planned to use and tie together as many state and federal programs as possible.

The Manpower Development and Training Act, the overall Kentucky Vocational Education program, and the Area Redevelopment Association training programs give a variety of training possibilities which can be further improved by relating them to new possibilities for pre-school and remedial education and adult education.

Grants from the Office of Economic Opportunity may cover up to 50 percent of the cost of program actions, and may be made to both public agencies and private non-profit agencies with emphasis on comprehensive and coordinated action programs at the community level.

These programs at the community level are the heart of the Economic Opportunity Act and may involve many things, such as:

1. services and activities to develop new employment opportunities; 2. providing special and remedial education, with particular emphasis on reading, writing, and mathematics; 3. providing comprehensive academic counseling and guidance services and school social work services;

4. providing afterschool study centers, after-school

tutoring, and summer, weekend and after-school academic classes; 5. Establishing programs for the benefit of pre-school children; 6. reducing adult illiteracy; 7. developing and carrying out special education or other programs for migrant or transient families;

8. improving the living conditions of the elderly; 9. arranging for or providing health examinations or health education for school children; 10. rehabilitation and retraining of physically or mentally handicapped persons;

11. providing health, rehabilitation, employment, educational and related services to young men not qualified for military service; 12. providing community child centers and youth activity centers; 13. improving housing and living facilities and home management skills;

14. providing services to enable families from rural areas to meet problems of urban living; and, 15. providing recreation and physical fitness services and facilities.

The cadre of leadership to implement projects of such programs in our area consists of Mayor Willie Dawahare, Chairman of the Upper Kentucky River Development Association, consisting of Knott, Perry, Letcher, and Leslie Counties. The county development associations are chaired by Bob Morgan, Knott; Floyd Hall, Perry; Stanley Hogg, Letcher; and, Rev. E. T. Ehresman, Leslie, which make up the entities that compose the UKRDA.

### Faulty Welfare System

The "welfare system" is a topic of frequent discussion these days, particularly here in the Appalachian Mountains where it is so widely practiced. The system's critics say the welfare program is too big, while its proponents argue that the need for welfare still far outweighs the available facilities.

But a point that people on both sides of the question seem to agree on is that, with all questions of size aside, the red tape and built-in inequities of our present programs are causing added hardships on those who are genuinely in need of help.

Take the case of the man and woman who live right now in Perry County, with eight dependent children still at home. The mother is a TB patient with an infant child, the father a sick man unable to perform heavy labor. This family receives no cash welfare benefits but it does get food stamps every month, which constitute the major portion of its livelihood.

The other day when the mother went in to pick up her food stamps she was routinely asked if her husband had found any work in the past month. The mother made her first mistake here: she told the truth, said yes, her husband had helped a neighbor work on his house for two days. At this admission, the wheels of the great program ground to a halt. How much did he earn? the mother was asked. When she replied she wasn't sure, she was sent back home, far out in the county, to find out before she could receive her stamps.

Before it was over, the mother made three trips from her house back into town, the first time to pick up her food stamps, the second to report how much her husband had earned in two days light work, the third trip to get a signed statement from the "employer" stating

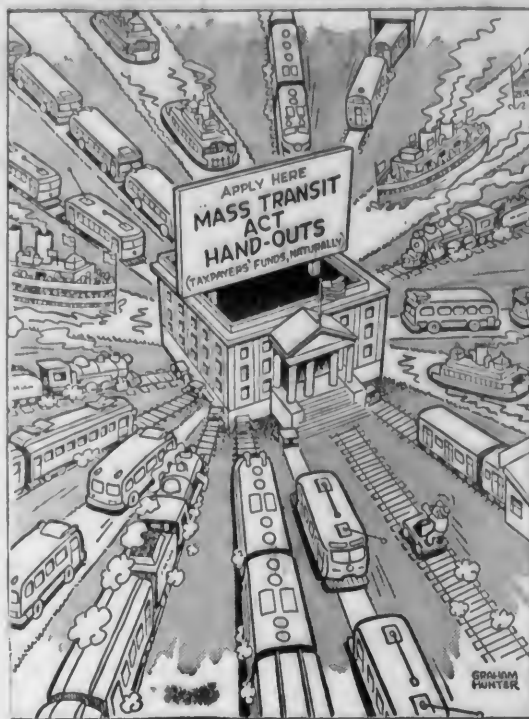

how much he had paid the woman's husband. It was something under 20 dollars. When the woman finally did get her family's stamps there was an appropriate deduction to compensate for her husband's "earnings."

On the surface, this story may not mean much to the average reader. Most people are unable to visualize just how hard it is for a mother such as the one described to simply get back and forth to town with an infant in her arms and no car. The casual reader is likewise not likely to notice one of the crucial points of the whole episode, that all this woman's difficulty was caused because she told the truth. All she had to do was lie a little and say her husband had not worked and likely the welfare people would never have known the difference. Another central point obvious in the story is that the whole complication could have been avoided had the man simply refused to take the job his neighbor offered him.

That the man did work is significant and to his credit, and the same can be said of the woman's honesty. The shame of it all, though, is that the nature of our present welfare system in effect penalized these two people for what society normally looks upon as virtues: truth and ambition.

The welfare worker who sent the lady home was only doing his job. It is the inflexible nature of the present system that is at fault. Many honest but unfortunate people who deserve help and sympathy are being injured because too little imagination went into the thinking behind the existing welfare programs. As needed as they are in many cases, the various programs need some fundamental rethinking and more imaginative approaches to the problems posed by automation, unemployment and lack of education in our society.

### Complaint Against Garbage Fee

Hazard Herald,  
Dear Editor:

In February 1964 the city council, Mayor Willie Dawahare, Commissioners, C. B. Feltner, Dr. M. B. Payne, Dr. Eli Boggs, and Jack Burnett; Attorney Ernest Faulkner; Manager C. C. Colwell made an ordinance covering a garbage service costing \$1.00 per month for each household (special arrangements for business places).

The writer with over thirty-five years disposing of garbage by a 100% sanitary method (burning) in a water heater furnace having a chimney 23 feet high and this method was accepted by the city for over thirty-five years. The writer was penalized 10% and water service cut off July 30th with another \$1.50 added to restore the water service. The so called delinquency account is the first since coming to Hazard.

The valuation or importance of accounts by the city makes one think of intelligence tests that used to be used. According to publicized lists of the city's delinquent taxes many bills indicate hundred of dollars and there are known water users delinquent on more than one month's water service, but the writer was given the works for the \$4.89 which was not accepted after it was deposited in the city office several times for the July account. The mail opening at the door provided the payments entrance but the payments were returned each time by mail.

The writer has been glad to go along with the Garden Club in their endeavor to make the city's appearance more like, able, especially the good looks of the lawns and trees along the highways approaching the city, but the city's garbage transaction has caused the writer to abandon the work (always gratis) of several years for future care by the city.

Yours very truly,  
P. L. JOHNSON

### Son's Name Defended

To the editor:

In answer to Mr. Wooton my son David Riddle and Bill Back were not "Buddies" as you have written. They have been lifelong friends. This friendship did not develop overnight, that is to say they were not on any "spree" that night. My son went up to that tavern that night to see a man on some business. As he started up there he saw Bill Back and asked if he would ride up there with him. The rest as to what happened is terrible history. David and Bill grew up in poor but decent Christian homes. David went to the Navy, lost an eye while on duty for his country. After this he came home and went to college on the G.I. bill. When he died he lacked four hours having his master's degree. If he had lived, he would have been supervisor in the school where he had taught for the last five years. This school is in the Ohio system. The superintendent, principal and faculty all came to David's funeral. His principal told me that David was one of the best liked and respected teachers on his faculty. David was fully supporting me, his mother, and his father. That's the kind of son and man he was.

## Cushaw-eating Muskrats Stopped In Busy by "Courageous" Writer

By W. R. Williston

Attendance at the Christian Church and Sunday School Sunday was 25; the offering was \$10.53.

A group of our church members held services at the home of Uncle Jack Fugate Sunday evening. He enjoys the meetings so much.

Our dinner guests Sunday were our daughter, Jane Combs and her daughter, Judy, from Wabaco. Our Sunday evening guests were Mr. and Mrs. Hobart Hoskins, and daughter Linda, from Combs, Mr. and Mrs. John Feltner and daughter Lena and Earl Redmon, all from Pittsburg, Ky., Eva Campbell, Beverly Sue Engle and Nancy Wooten, all of Busby.

Visiting us Monday were Mrs. Sude Stidham and Mrs. Billie Clinglehoffer. Billie returned to stay with the Stidhams for a while. She is the one that was crippled in the bad wreck in March but seems to be getting along very well. She still takes her crutches

with her when she goes out. Mr. and Mrs. Ted Feltner visited the Stidhams over the week. Also visiting them was Billie's husband, Tommy, of Cincinnati.

Well, the muskrats have been eating on my cushaws and I have already caught two big ones. So I think that has stopped the racket.

## Morehead Butts Butler 26-7 In Opening Football Game

Morehead State College opened its football season with an impressive victory over Butler University at Indianapolis, 26-7, as the Bulldogs could not contain the Eagles' overpowering offense.

The Morehead defense was a strong factor as they held the Indians to only one first down in the first half. "There were some bright spots in the Butler game although I was disappointed in the aggressiveness and poise in the first unit after they had scored their first three touchdowns," said head coach Guy Penny.

Fullback Russ Campbell was the leading rusher in the game as he gained 66 yards in 11 carries for an average of 6 yards a carry. He also scored a touchdown on a 24-yard pass play from quarterback Mike Gottfried.

Morehead failed to make a first down from midway in the third quarter until the end of the game. "This was due," said Penny, "to the fact that not one individual on the field at that time had any college game experience. An effort was made to find some individuals who would be able to add depth to the Eagle squad."

Mike Gottfried connected on three of five pass attempts and gained 53 yards by air and threw for one touchdown.

Scotty Reddick, a defensive specialist, was very impressive in his first offensive attempt. He gained 35 yards on a kick-off return and scored a touchdown on a 10 yard jaunt.

Other outstanding players were: tackles Richard Jones and James Osborne, guards James Hall and Ken Howard, ends Richard Pare and Jack Smith, halfbacks Tally Johnson and Dennis Brown and center Bill Hornbeck.

The Eagles suffered little or no injuries in the Butler game. Jack Smith suffered a ankle injury and Gary Virden suffered a bruise to his rib cage. Both players are expected to be ready for the Marshall game.

Morehead will travel to Ashland, Kentucky, on Saturday, September 19, for the annual Shrine Game against Marshall University.

Marshall should be much stronger than the team that finished with a 5-4 record and fourth place in the Mid-American Conference last season.

## Hazard Students Enroll At Kansas

The following students from Hazard, Kentucky, are enrolled at Central Christian High School, 801 N. Chemical, Hutchinson, Kansas, for the 1964-65 school year:

Mavis Engle, Freshman; Joan Collins, Freshman; Jane Collins, Freshman; Dale Elkins, Freshman; Alice Collins, Junior.

Central Christian High School offers a fully accredited high school program plus classes in Bible Study, and is now engaged in a Campus Development Program to further improve the total facilities of the school.

## Combs Resident Suffers Pneumonia and Is Admitted To Hazard Hospital

By H. C. Robertson

Mr. Charlie Miles was admitted to the Hazard Appalachian Regional Hospital early last week, suffering from pneumonia.

John Campbell, of Walkertown, visited relatives in Combs last week.

There will be a special Church Service at the Combs Methodist Church Saturday evening about 7 p.m. Dr. Will-

iam H. Pectus will be in charge. There will be a baptismal service at the close of the meeting.

Mrs. Emma Stamper is ill at her home in Combs this week. Jim Sego has returned to Cincinnati, Ohio, to work after visiting his mother, Mrs. Minnie Sego.

Glen Colwell has been discharged from the Hazard Appalachian Regional Hospital.

Dan Herald was admitted to the Hazard Appalachian Regional Hospital Sunday.

Leonard Turner, who has been living in Chicago, Illinois, has moved to Combs where he formerly lived. He is employed at the H & P Supermarket.

In Kentucky...  
at a picnic, beer is a natural

When you're relaxing at your favorite outdoor beauty spot with friends or family, and your thirst is whetted by fresh air and exercise—that's the ideal time for a cool, refreshing glass of beer. In fact, you can name your recreation—swimming, hiking, or just watching TV—and chances are nothing in the world fits it quite as well as beer.

Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

In Kentucky... beer goes with fun, with relaxation

# Watch for your next telephone bill

It's brand new, with a return envelope for your convenience.

Your next phone bill will be different, simpler to read, with more information. There's a new card with no stub to remove, and the improved bill form is simpler to file for household and business records.

There is a new self-addressed envelope for your convenience in returning the new card and your payment. Insert the new card in the return envelope so that your telephone number at the top will show through the window.

The new form shows several things not previously included; such as, the preceding month's payment and a listing of any miscellaneous charges. We hope you like our new bill form.

## General Tel. Customers Will Get New Bills

O'Neil Kidd, Hazard District Manager for General Telephone Company of Kentucky announced that effective with the receipt of their next telephone bill, Hazard and Leatherwood customers will have a new and improved bill form. The new billing method made possible through the use of a modern electronic computer, offers several advantages to customers over and above the old procedure. Along with the new bill, a self addressed return envelope is provided, making it easier for customers who wish to pay by mail.

Kidd said that the new statement will be easier to read, and more convenient to file, for household and business records. The first of the new bills will be mailed on September 21st. Information on the new statement will include previous balances, payments received during the month, charges for installation and moves of service, yellow page advertising, miscellaneous items, and current billing. Under the old billing method, it was sometimes necessary to insert as many as four separate forms to provide a full explanation of billing. Months of preparation have gone in to streamlining General Tel's method of computing and printing the bill. When paying by mail, Kidd remarked that the return envelope has a small window located in the front that is designed so that when inserting the payment card, the telephone number on the IBM card will show through the slot in the envelope.

If customers have any questions about this new billing, they are urged to call General Telephone's Hazard business office, telephone number 433-4444 and discuss the matter with their telephone service representative.

## A Vote for Budget-Saving Gravies

Election year makes everyone politically minded. Parades, rallies, and speeches are a part of the American scene. Campaigning homemakers welcome meals that are short on labor. There's no end to the savory concoctions made with canned gravies. Rich and smooth beef, chicken, and mushroom gravies are sure winners. Perfect additions to skillet and casserole dishes, they get the votes every time when used for hot sandwiches.

Listen to the parade of comments when you serve Peppy Pork Sandwiches. For this budget-saver, use leftover pork slices. Add canned mushroom gravy, horseradish, and mustard and serve on toasted English muffins. Garnish with spiced apple rings for a crowning touch. Team this delectable sandwich with frozen French fries and cabbage-carrot slaw for a quick saving meal. Your family will have something to rave about.

### PEPPY PORK SANDWICHES

1 can (10 1/2 ounces) mushroom  
1 gravy  
1/2 teaspoon prepared mustard  
1/4 teaspoon horseradish  
6 servings sliced cooked pork  
3 English muffins, split and toasted  
6 spiced apple rings

In saucepan, combine gravy, mustard, and horseradish; add pork. Heat, stirring now and then. Serve over muffins. Garnish with apple rings. Makes 6 open-face sandwiches.

## Taxpayers Must Meet Rising Cost Of U.S. Crime Fighting

UNITED STATES DEPARTMENT OF JUSTICE

Federal Bureau of Investigation

TO ALL LAW ENFORCEMENT OFFICIALS:

TAXPAYERS ARE HAVING to dig a little deeper each year to meet the rising cost of crime in our Nation. Since this heavy financial burden is directly related to the amount of lawlessness occurring, the report of some 2,259,100 serious crimes committed in 1963 offers no encouragement for immediate relief from criminal violence or the cost of fighting it. This total represents a 10-percent increase over the 1962 figure. In the past 5 years, crime has increased five times faster than our population growth.

It is not surprising, therefore, that crime costs are becoming a big issue in every community. Not only are more citizens being victimized with greater frequency, they are also being victimized with greater frequency, they are also being charged more for their misfortune. Presently, a conservative estimate of the annual crime bill is 27 billion dollars.

Experience has shown that in all fields of competitive encounters the best strategy for winning is a good, bold offense. A good offensive for effective law enforcement encompasses many vital components. Law enforcement agencies cannot wage a successful campaign against the criminal forces when inadequately equipped. It takes sufficient funds, outstanding personnel, and proper training programs and facilities to uphold law and order. These basic requirements are so closely interwoven in the makeup of professional law enforcement that the lack of one jeopardizes the overall achievements of any agency. Further, to single out one as more important than the others is subject to question. However, career police executives over the years have sought to attract top caliber personnel. Without exception, the one main obstacle has been the meager salary which they could offer. Consequently, many outstanding prospects do not bother to apply, and a good percentage of those who enter the profession are forced to leave for jobs with better pay in order to support their families.

Let us take a look at some of the pay scales for the average officer who daily risks his life protecting and defending his fellow man. The entrance salary for patrolmen in some of our cities having more than 500,000 population is barely \$90 per week. In a number of smaller communities with less than 25,000 people, the entrance pay drops to approximately \$50 per week. The average monthly earnings of full-time police employees in local governments are about \$483. This compares with \$508 for firemen, \$512 for public utilities workers, \$555 for school teachers, and \$560 for public transit employees. These figures lend credence to the contention that our society demands more for less from the law enforcement officer than from any other public servant.

To be sure, there are some encouraging trends for fair and just compensation for officers. The annual salary for first-year policemen in the major city is approximately \$8,000, with an appreciable increase in pay for all members of the department scheduled for the first of next year. There are other cities whose pay scales compare favorably with this. Even some smaller towns perceiving on much lower budgets start their officers at approximately \$7,000 annually.

Certainly, there are many factors to weigh in arriving at equitable pay scales for law enforcement. It is not expected that a blanket wage level for all areas could be agreed on, or justified. It would appear, however, that the marked difference in the lowest and highest figures cited for cities of similar size is a gap which should be greatly reduced—upward from the bottom.

Virtually every hamlet and metropolis is directly and deeply involved in the crime struggle. As the intensity of the battle heightens, the crime toll rises and the cost multiplies. None can dispute that the time for reversal is at hand.

I say to all Americans, let us grab the offensive. Let us take the positive approach by investing more of this cost in the improvement of law enforcement, thereby seeking dividends in crime reduction. Let us begin by raising the pay of officers to a fair and just level to attract outstanding personnel. And finally, let us supply the forces of law and order with the strength, the facilities, and—most important—the support needed to discharge their obligations.

—J. EDGAR HOOVER, Director.

### FIRST FROST FALLEN

Bless my ornery hide it has already happened, the first frost has fell as of this date, Sept. 14th. I have heard of three different sources in the Chavies area and Grapevine reported it. Also heard of another fellow that drives a bus somewhere here in the County that he had to scrap ice from his windshield also on this date. I had planned on us having a little guessing game in regard to the dates when the first frost would fall. Folks we are in for an early fall from this indication to start it off with.

### HARVEST OF MANY

Things such as Gourds have already matured, taters are dug, understand many of you are starting to fodder. Have only heard one among all of that are ginning sorghum. Wess Whitaker is in a big way I have heard making the old time lasses that we were brought up on. This has been a fine season for our gardens, but you that have had late patches of beans, and etc., many of you have told me they have dried up due to the hot weather. Malcolm Hicks from up Happy way has fetched me some miniature gourds, along with Mason Sloane from Macey's creek brought in a whopper of a potato, it weighed in a 2 1/4 pounds. Wess Whitaker also fetched me out of the First Ray Baker squash to have been raised from the seed that Roy brought me from down Tennessee way. Mrs. Beckham Sizemore gave two of the finest apples I have seen grown in our area. Understand that Beckham grafted this tree which was only two years old. Which only goes to prove that we can raise real good fruit here on our hills if we would only apply our selves and work a little. I have noticed in the fall of the year so many trucks in Wise County, Va., coming after apples. These hillsides of ours could produce the same if we would go after it in the right way.

### HUNTING IS STILL

Rather spotty, even in this dry time some of you are getting your share of Mr. Bushy Tail, understand you boys at THE HERALD, are still bagging a few, Galen Howard, Roy Caudill, Jack Branson, Raleigh Danner, Andy Hill all from up Lothair way have been doing real well, also Arthur Bailey and Jim Lunce have been getting a few. Plenty being seen, but many being killed during this extreme dry season. Dove Season hasn't been too popular here in our area due to the fact that we don't have the small grain raised. Rio Stevens tells me that he has seen several Doves in the Buckhorn area. Billy Morton I know has made a couple of trips for Doves, one near Monticello had very good luck he thought, nine one day, twelve the next, along with Paul Isom, they

seemed to have been very well pleased with this hunt. Next one Billy took his son Peyton to Clark County, being the first time, which was the first time Peyton had shot at a live target, he bagged three and his dad four. Peyton just kept up the good work. I would say you did an excellent job for the first try. You just stay with it you will bust their hides of other species, because if you can hit a dove on your first attempt you are in the groove son.

### IT SEEMS THAT

The kids are in the spotlight this week, little TERRY HYDEN from MARTIN, KY., was over at Buckhorn Reservoir this past week with her parents Mr. and Mrs. Joe T. Hyden for an afternoon of recreation. Little Terry age ten caught her self a 15" bass on a plastic worm. Folks this is what I call a fine way to take your family out. Little Terry will long remember this date as well as her fish. Understand that Piano Castergano's little girls was near when Terry caught this nice bass, his little girl said don't let my daddy see that big one, he will be jealous of you. Glad to hear from you folks of Martin County visiting our Lake Buckhorn, I am sure I had after this event you will be coming back every chance you get.

### WAS SO NICE SEEING

And talking with so many of you of late, to you Mr. and Mrs. Dewey Habbrook of Calif. Mrs. Habbrook is a sister to Mrs. Beckham Caudill, they stopped by to pay a visit, they were on their way to Wyoming to bag game hunt. Mrs. Habbrook was an ardent hunter I would say from her conversation in regard to hunting. Here's wishing you folks much luck on this trip also to you Tug McDaniel and son, and your entire family it was nice talking with you from Mobile, Ala. I am sure that you folks really enjoyed your visit back in the old stomping ground of your boyhood days, also to you Mr. and Mrs. Lloyd Larkey, and Sarah Van Cleve of Lex. Ky., missed Mrs. Larkey and Sarah, little Britches it was nice seeing you again, and many thanks in regard to this column, sorry I missed you Mrs. Larkey and Sarah. Yes, it is peck's like you that keeps this column on the move. Thanks to you Willie Turner also in regard to this column, who is now a resident of Florida, Glad to know that your mother Mrs. Hann Turner was able to make the trip with you. She is just a spring chicken only 90 years young. Glad to know she made the trip so well. Well I can recall the many bags of Candy that I have bought from her, one I recall was the old time name for it was THE JAW BREAKER, folks that was the most appropriate name for them I ever heard of, believe me, it would almost chip concrete if you dropped one on the sidewalk.

## AN EXPRESSION OF THANKS

We wish to take this way of thanking the many friends and relatives who were so kind and helpful during the recent illness and death of our beloved brother and uncle, Roscoe Pigman.

Especially do we thank the Reverend Mr. Bender for his comforting words, the soloist, Rev. Mr. Beckwith for his well chosen hymns, the personnel of the Maggard Funeral Home for their kind and efficient service, relatives, friends, and others who took time to visit the hospital, the servicemen from Ft. Knox, all those who came to his home to ask about him, called by phone if they could not come in person, brought generous contributions of food, did the cooking and all the many tasks that must be done, stayed with the family when needed, sent the beautiful floral offerings, prayed for him and for the family, or came to offer their love and respect for Roscoe just by being there. It is good to have friends and we are grateful for anything and everything that was done for him and for us.
